

RUDRESH MISHRA

Full Stack Web Developer — MERN Stack Specialist

Bhopal, Madhya Pradesh, India

9755406529 | rudreshmishra721@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full Stack Web Developer with expertise in MERN stack (MongoDB, Express.js, React, Node.js) and Computer Science Engineering background specializing in Cyber Security. Proficient in building scalable REST APIs, responsive web applications, and secure authentication systems. Strong foundation in JavaScript, Data Structures, and Algorithms with focus on clean backend architecture and real-world problem solving.

TECHNICAL SKILLS

Programming: JavaScript (ES6+), SQL, HTML5, CSS3, Python

Frontend: React.js, Redux, Responsive Design, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Session Management

Database: MongoDB, MySQL, Database Design, Query Optimization

Tools & Technologies: Git, GitHub, npm, Webpack, Postman, VS Code, OpenCV

Core Competencies: Data Structures, Algorithms, OOP, Cyber Security, Machine Learning, Agile Development

EDUCATION

Bachelor of Technology in Computer Science Engineering (Cyber Security) May 2021 – April 2025
Oriental College of Technology, Bhopal, Madhya Pradesh

PROFESSIONAL EXPERIENCE

Full Stack Web Developer | *Self-Directed Development* 2023 – Present

- Architected and deployed full-stack web applications using MERN stack with end-to-end development from database design to frontend implementation
- Designed and implemented RESTful APIs with Express.js and Node.js ensuring scalable backend architecture and efficient data handling
- Built responsive, user-centric interfaces using React.js with state management achieving seamless cross-device user experiences
- Integrated MongoDB databases with optimized schemas and queries improving application performance and data retrieval efficiency
- Implemented secure authentication systems using JWT and bcrypt protecting user data and ensuring application security
- Applied Data Structures and Algorithms knowledge to optimize code performance and solve complex programming challenges

PROJECTS

User Management System *MERN Stack, REST API, JWT Authentication*

- Developed comprehensive user management system with authentication, authorization, and role-based access control
- Implemented RESTful API endpoints for user CRUD operations with secure JWT-based authentication
- Designed MongoDB schema for efficient user data storage and retrieval with optimized queries
- Built responsive frontend interface using React.js for seamless user interaction and management

Face Detection and Recognition System *Python, OpenCV, Machine Learning*

- Engineered face detection and recognition system using computer vision and machine learning algorithms
- Implemented real-time face detection with high accuracy using OpenCV and deep learning models
- Developed image preprocessing pipeline for enhanced recognition accuracy across varying lighting conditions
- Integrated system with database for storing and retrieving facial recognition data efficiently

CERTIFICATIONS

The Web Developer Bootcamp – Udemy | **JavaScript (Basic & Intermediate)** – HackerRank | **Data Structures and Algorithms** – Zero To Mastery Academy
